Cartridge Controls

During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested, first. If both cartridges weigh 24.50 g and below, no further action will be taken. If one (1) or both cartridges weigh more than 24.50, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weighs more than 24.50 g, then the athlete must be disqualified (DSQ).

During Finals and semi finals, all finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Finals and semifinals (Reporting Time), all the cartridges that will be used during the Finals and semi finals and place them in separate Cartridge Control Boxes on the Finals field of play. The Finalists must report at least 15 minutes before the start of the Final. The Equipment Control Jury will take the necessary samples from the boxes. The boxes must be left under the supervision of a Shotgun Jury Member. Once ammunition is placed in the box, only the Equipment Control Jury or the Finalist can remove ammunition from the box. If additional cartridges are brought to a Finalist during Finals or semifinals, samples from those cartridges must also be selected for testing. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Finals.

Colored Wads

Only transparent or translucent wads with no color may be used.

If an athlete uses ammunition that is not in accordance with Shotgun Rule 9.4.3.1 a), then the athlete must be disqualified (DSQ).

Equipment Control

Equipment control will be open to competitors as scheduled in the Program of the competition.

7. Immigration and Customs Requirements

ENTRY VISA

Cyprus is a full member of the European Union and some nations require visas to enter into Cyprus.

Important Note: Cyprus is NOT an active Schengen Visa member. Schengen Visas are acceptable provided they have been activated in another European country before arrival in Cyprus.

We strongly advise all NON-European Union participants to verify well in advance whether they need a visa for entry into Cyprus. The visas must be obtained from a Cyprus Embassy or Consulate abroad **prior to arrival**. No Visas are granted upon arrival at the airport. The Organizing Committee will be ready to supply to the participants applying for a visa, any necessary additional supporting documentation.

Detailed information regarding visas and formalities for entry into Cyprus can be found in the website of the Cyprus Ministry of Foreign Affairs, www.mfa.gov.cy, at the “**consular information**” and “**travel information for foreign visitors**” subsections.

Custom Formalities, Import of Firearms

All athletes, NOT holding a ‘European Shotgun Certificate’ will be requested upon arrival at Larnaka or Paphos airports, to present to customs (Red Channel) the completed official ISSF World Cup Firearm and Ammunition Form, in order to obtain a temporary shotgun, import permit. No other documentation or certification is necessary prior to arrival.

European Union nationals holding a ‘European Shotgun Certificate’ will be required to check their shotguns through customs (Red Channel) also and verify the serial numbers of their guns, only.

The gun permits or the ‘European Shotgun Certificates’ must be represented to customs at the time of departure.

IMPORTANT for all athletes (EU or non-EU members):

The import of **12G Semiautomatic shotguns** is prohibited in Cyprus. Athletes, who intend to bring to Cyprus such shotguns for exclusive use at the competition, must contact the Cyprus Shooting Sport Federation **at least one and a half (1½) months** before arrival in order to obtain a special import permit.

Useful Information on the carriage of Shotguns on International Flights

As a rule, before issuing any flight ticket the travel agency appointed to book the flights must make sure that both the ammunition and the firearms are accepted on board the aircraft till the final destination. The approval should appear in the electronic ticket (on the PNR Passengers Name Record) or on a separate message sent to the travel agency by the Airline Company.

The rules governing the carriage of firearms are those of the carrier who owns the aircraft therefore in case of flights made in code-sharing, the approval must come from both companies even if on the ticket the abbreviation of only one Company appears (i.e. AZ - EI - LH - SU, etc).

Normally, the final decision to accept firearms and ammunition on board comes from the captain / Airline Company, but once you have the "ok" on your flight ticket, the Airline Company is responsible for having your firearms sent to destination.

**ISSF WC
SHOTGUN
NICOSIA, CYP
8-18 March 2022**

In case of indirect flights, it is advisable to consider a connection of at least two hours. Upon landing at the first airport, report to the information counter and make sure that your firearms have arrived and will be taken on board of the connecting flight.

Still, in case of indirect flights, avoid booking them with two different Airline Companies as most of the times the firearms will be discharged and left at the first airport and the owners will have to collect them and make a new check-in, provided the local police authorities do not cause problems of licences. That will probably cost extra security and boarding tax and sometimes extra baggage fees. If passengers are not informed, they risk arriving at the final destination without knowing that their firearms have not been loaded on the connecting flight and are lying in the previous airport. In many countries even if in transit and the baggage is labelled till destination, the control of firearm is made at the first airport of arrival and this is why it is advisable to keep the situation under control step by step.

All firearms and ammunition must be declared while making flight reservations and at check-in and follow the procedure reserved to these special articles. It is a big mistake to pack them into normal bags and dispatch them as normal baggage because in case of loss it will be very difficult to find the firearms in a short time and last but not least, owners will be liable to heavy fines. Please bear in mind also, that some Airline Companies (unless your national federation has a special agreement with the Airline Company, for the ammunition) will charge extra for the carriage of the ammunition boxes. The charges vary from EUR 50.00 to EUR 60.00, per box of 5 kgs, one way.
